- **Microsoft Excel & PowerPoint-** Udemy, 2020

Career Objective

Performance-focused Merchandiser managing Calvin Klein (CK), Reitmans, and Karl -Lagerfeld accounts, contributing to annual business valued at over US$13 million. Experienced in end-to-end order management, production tracking, customer & supplier communications, and ensuring on-time shipment execution. With a strong eye for detail and a commitment to continuous improvement, I aim to further develop expertise in global apparel sourcing and retail operations, while driving value, efficiency, and sustainable growth within an organization.

Work Experiences

Interstoff Apparels Ltd.

Assistant Merchandiser-Marketing & Merchandising — *July 2025- Present*

Buyer:

- CK
- Reitmans
- Karl Lagerfeld

Responsibilities:

- Maintain T&A calendars and coordinate with cross-functional teams to ensure timely order execution and shipment.
- Coordinate with buyers on order status, lab dip & strike off approvals, trims approvals, sample approvals, production updates, and issue resolution.
- Source fabrics, trims, and accessories; coordinate with suppliers on pricing, availability, quality, and delivery.
- Identify production and supply chain risks and follow up with relevant teams to minimize delays to order execution.
- Coordinate sample development and submission across Proto, Fit, PP, Size Set, and TOP samples
- Participate in PP and Risk Analysis meetings to review order status, identify potential risks, and coordinate corrective actions.
- Manage bulk fabric & trims, accessories booking through ERP, yarn requisition, and coordinate with the production team to make sure on time shipments.
- Coordinate with commercial teams and suppliers to resolve payment and shipment-related issues.
- Coordinate fabric & garment third party testing according to buyer requirements and follow up on reports.
- Coordinate inline and final inspections with Buyer QA teams and follow up to ensure completion within shipment timelines.

Epyllion Group

Executive- Dyeing — *April 2025- July, 2025*
Management Trainee- Sample Dyeing — *October 2024- March 2025*

- Coordinated with Knitting, R&D, Merchandising, Laboratory, QA, and Finishing teams for timely sample development and approval.
- Supported sample production planning and monitored dyeing execution to meet quality and delivery requirements.
- Supported cost-reduction initiatives through chemical optimization and process improvement.
- Led the dyeing production team to successfully deliver targets.

Epyllion Group

Industrial Trainee — *Jan 2024- March 2024*

- Gained knowledge of production processes by observing day-to-day operations in the production department, including knitting, dyeing, printing, finishing, quality assurance and garment manufacturing.
- Gained in depth knowledge of quality control of the products and learned about process optimization.
